

Amateur Radio Awareness Day

Fulton Mayor Paul Walker, center, signs a proclamation recognizing September 16 as Amateur Radio Awareness Day while Mississippi Assistant Section Manager Edwin “Lee” Franks, left, and Northeast Mississippi Radio Amateur club member Jeff Clingan, right, stand as witnesses. Franks and Clingan join the thousands of certified Amateur Radio operators across the nation who keep an eye on local communities during emergency situations and are honored to have a day of recognition for their service to their communities.
