

Stateline SKYWARN – Net Preamble

This is the Stateline Sky warn Training Net. This is _____ and my name is _____. I will be the net control station for this evening. This net meets every Thursday evening at 7:30 PM local time on the 147.075 MHZ repeater, 103.5 HZ tone, located in Tupelo, MS. In the event of failure of this repeater the first alternate repeater frequency is 146.835 MHZ, tone 123.0 HZ located in Saltillo, MS. The second alternate repeater will be the 145.450 machine, tone 192.8 located in Fulton, MS.

The purpose of this net is to prepare Amateur Radio Spotters and their equipment for actual emergency situations and provide information of interest to the Amateur Radio Skywarn Spotter community.

This is a directed net. All stations will call the net control station before breaking the net.

Is there a volunteer to act as back-up net control station? Please send your call sign.

Is there any emergency priority or welfare traffic?

Are there any mobile stations desiring to check in at this time?

Are there any announcements for the net?

We will now take roll call of stations with suffixes Alpha through Golf.

Stations with suffixes Hotel through Oscar.

Stations with suffixes Papa through Zulu.

Are there any late or missed Skywarn stations who wish to check in now?

Are there any visitors who wish to check into the net this evening?

Is there any further business for the net?

To all who participated in this training net, Thank-you for your participation.

This concludes the Stateline Skywarn training net for this evening. The net is now closed at _____ local time and the repeater is returned to regular Amateur Radio communications. This is _____ Out.
